

Position Available in Christiansburg, VA
at the
New River Center for Energy Research & Training

Community Housing Partners is seeking a motivated individual to develop electronic and video training materials to support our energy efficiency training programs.

Primary Responsibilities will include:

- work in collaboration with NRCERT's trainers to create digital and video training materials
- identify and articulate learning objectives
- create pre- and post-testing materials
- develop program resources
- develop comprehensive evaluation processes and templates

Position Requirements:

- proven abilities in videography, web design, and expert computer proficiency
- bachelors degree
- possess some familiarity with the green construction and alternative energy fields
- detail oriented, with strong verbal and written communication skills
- some travel required

This contract position begins immediately.

Excellent benefits. Terms and overall compensation package are dependent on knowledge, related experience, and availability.

Please send a cover letter and resume to

mjackson@chpc2.org by May 28, 2010.
